3. Name of Subdivision (If Applicable) N/A
4. Property Owner/Developer Name: Steven and Geri Clouse
5. Relief Requested (Reference the specific Section/Paragraph of the current KC Development Rules and Regulations and state the relief requested.
300.1100 Road Frontage We desire to create a 9.7 (approximate) acre tract out of our 51.383 acre tract to be deeded to a neighbor.  - a. Are there special circumstances or conditions affecting the land involved such that the strict interpretation of the provisions of the regulations would deprive you of the reasonable use of this land: Yes (If "yes" please state the special circumstances or conditions)
This answer is yes. This is a transaction between private property owners who are cooperatively working together in a reasonable manner. This is not a developed subdivision that increases intensity or demand on natural resources. Both properties have a single existing house on each parcel, and it is anticipated that each parcel will retain the existing available open space. Both parcels desire to contain both open spaces and wooded acreage for wildlife management, hunting and other purposes.
This relief will not be detrimental to the public, health, safety, morals or general welfare: or injurious to other property in the area.
 - b. Is relief necessary for the preservation and enjoyment of a substantial property right for you? Yes (if "yes" please state the substantial property right involved)
This answer is yes. Each of these parcels is a single-family residence. As private property landowners, each parcel has the right to sell, buy or trade land to improve the value or recreational use of their properties.
Both properties seek to preserve, manage and enjoy wildlife and hunting opportunities.
This relief will not be detrimental to the public, health, safety, morals or general welfare: or injurious to other property in the area.
